The following is an examiner's statement of reasons for allowance: Applicants correctly argue that a substituted carbonyl group can not be regarded as a substituted saturated or unsaturated aliphatic group as those terms are defined in the present application (see the paragraph bridging pages 5 and 6 of the specification).

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

A handwritten signature in black ink, appearing to read "Bruce Hess". The signature is fluid and cursive, with the first name "Bruce" and the last name "Hess" clearly distinguishable.
